

ON THE JOB TRAINING

Wage Reimbursement Program

The On-The-Job (OJT) Program is an essential tool that can help employers offset the cost of training new talent. This program offers an incentive to employers for hiring eligible job seekers and providing them new skills training.

Here's How It Works:

- Step 1.** Post Job qualifications (NCWorks online)
- Step 2.** Our team will identify and assess potential candidates and make referrals to you
- Step 3.** You interview and select candidates to hire that meet your needs
- Step 4.** You hire and we reimburse 50% of the training cost
